

THE MANITOU SCHOOL

Nurturing the unique spirit
within each child

IMAGINE

CREATE

CHALLENGE

THRIVE

***Engaging, bilingual education
for curious creative kids***

**Learning
takes place
in every
moment, in
every place.**

We believe in combining academic excellence, progressive thinking and creativity so that children can master both core knowledge and skills. At Manitou, informed, motivated teachers, a focused curriculum, and carefully crafted learning environment are highly tuned to students and how they learn. Our teaching philosophy emphasizes understanding how each child learns. This enables us to tailor each child's education to meet their potential and reach higher levels of academic thinking.

***It's not just
what we
teach, but
how we teach
it, and how
our students
respond.***

- Full immersion Spanish program with native Spanish-speaking teachers
- A warm, engaging environment that sparks curiosity and discovery, where nature is our classroom
- Project-based learning that integrates multiple disciplines and applies them to engaging activities
- Multi-sensory experiences daily, combining music, art, movement, science, storytelling into every lesson
- High academic standards and expectations to help children thrive and achieve their full potential

***A child who loves school
in the early years will
love to learn forever.***

Stepping Stones Program

2, 3 or 5 Days • 8:45-12pm or 3pm

The starting point of the educational journey. The skills and knowledge children develop early are the foundation for life long learning.

PreK/Kindergarten Bridge

4 or 5 Days • 8:45-3pm

Using a unique curriculum, our teachers help children develop social, emotional, and academic skills through project-based, interdisciplinary activities that build confidence and knowledge.

Elementary (1st - 6th Grade)

5 Days/ Week • 8:30-3pm

Our Early Elementary program shapes a child's attitude towards learning, supporting social and emotional growth, developing lifelong work habits, and providing a firm foundation in literacy, math, and scientific inquiry.

After School Programs

Monday - Friday 3-5pm

Our after-school enrichment programs are open to all children and adults in the community. They range from early language learning programs for 2-year-olds, second language instruction, enrichment classes in science, literacy, math, art, and music.
